## PRESS RELEASE

Antwerp, September 8 2014

### **Mammoet opens new crane depot in the Port of Antwerp**

Mammoet, global leader in Engineered Heavy Lifting and Transport, recently opened a new crane depot in the Port of Antwerp, Belgium.

The new crane depot will further improve service to customers in the area and support the company's growth of recent years. Having cranes in the vicinity of Mammoet's customers in the petrochemical, container shipment and dredging industry enables the company to provide quick service and help its customers optimize their project planning and execution.

Director Luc van Bogaert commented: "Our new depot in Antwerp strengthens our position in this leading port. It supports our mission of being a worldwide service provider, which is also close to its customers and provides a service tailored to local needs."

**Mammoet**

Mammoet helps clients improve construction efficiency and optimize the uptime of plants and installations. For that purpose, we provide solutions for lifting, transporting, installing and decommissioning large and heavy structures. [Our services](#) are focused on the petrochemical and mining industries, civil engineering, power generation and offshore projects. The logistic challenges in these industries are growing daily. Factors such as remote locations, harsh climates and a strong emphasis on the environment are constantly driving us towards smarter and safer solutions.

Mammoet's services in Engineered Heavy Lifting and Transport comprise:

- Heavy Lifting Services
- Heavy Transport Services
- Plant Turnaround / Shutdown Management
- Site-wide Construction Services
- Modular Construction
- Factory-to-Foundation / Logistics
- Emergency response & Wreck removal
- Decommissioning of onshore and offshore installations
- Trading in new and used equipment worldwide

For over two hundred years, we've been known for the unique capability of our state-of-the-art equipment. But it's the trust of our clients that has brought us where we are today. Their confidence inspires 5,000 Mammoet professionals to give it their all each day and truly make a difference in projects all over the world.
